

# HOPE KALIBBALA

---

Praise God!

I want to first of all thank God for the gift of salvation given to me freely through his son Jesus Christ. I thank Him for life, for my wife Edrian Kalibbala, and for our son Laughtone Tendo Kalibbala. I then thank Him for the divine connection to the people whom He has used to cause a difference in my life.

Our country Uganda is blessed with a beautiful tropical climate and with people who are eager to learn and eager for an opportunity as well as very hard working. However, being a third world country, Uganda has many challenges. Among the many challenges is the lack of education in children and dropping out of school before completion due to lack of school fees. Another challenge is lack of employment of which I was a victim for a long time. I tried to make ends meet but things were not working out.

Through my pastor Frank Mukiliza of Jesus Power Church, the Lord established a divine connection with people who have caused a difference in my life. These were God-sent men from the USA in the year 2007. They were Pastor Doug Cederberg, Brother Dave Wassen, and Brother Todd Klipp all from Trinity Covenant Church.

Meeting with Brother Todd Klipp has been life changing. As I strived to start up a business in videography, God brought Brother Todd as a miracle. He has supported me financially and because of his support, I have been able to start and have a good business running. Today, I can support myself and my family and I have been able to teach others video editing. I have come to all this because somebody with a loving and caring heart traveled all the way from the USA and met with me. He then stretched out his hand to offer support to me.

I was a jobless man at one time but because of the support from Brother Todd, today I run my own business which is helping others as they learn what I do. Praise be to God for the Hearts and Hands Ministry and Brother Todd.

April 2009
