

# PETER TIMOTHY BAZITYA

---

Praise God!

I have a reason to Thank God from the bottom of my heart. I was found a failure in life; to think of it all completely finished. My parents gave birth to eleven children: five girls and six boys. We grew up in the darkest, most primitive village, Nkozi Kwaba. We were very poor. Farming was the only occupation. To get a coin was seen as a miracle. This meant little access to education. I looked at all my elder brothers and sisters. No one could reach O'level of education. My future seemed to be all but closed.

But I believed I could make a difference. I started moving to the nearby trading center during my primary four year (1994) working as a helper in building construction. I used the money to pay for my education until I completed my O'level in 2001.

In 2002 I moved to Kampala where I decided to give my life to Jesus. In December 2006 I met with a mighty man of God, Pastor Frank Mukizira, who became a father to me. From that moment on I experienced the kindness of Jesus.

Pastor Frank cared for me as his son and I loved to start ministering in the Jesus Power Church. Within one year he provided me with a sponsorship so I could continue my studies in Civil Engineering.

I have seen my future opened wide; it is like a dream that has come to pass. Happily I now believe I can become a professional engineer within four years.

My thanks goes to the people who have been there for me in times of scarcity and pain. Special thanks to Pastor Frank, Dad Todd Klipp, Pastor Doug and all of the prayer partners in Jesus Power Church, Uganda, and Trinity Covenant Church in the USA.

I thank God for all He has brought me through and for opening the door for me to reach my success and joy.

December 2008

**“I have seen my  
future opened wide.  
It is like a dream  
come to pass”**
